

Education **Northeastern – B.S. in Computer Science and Design**

Expected May 2028

GPA: 3.9 | Concentration in Interaction Design

Experience **CarGurus – UX Design Intern**

June 2026 – Aug 2026

Redesigned the status system for an A/B testing tool, replacing an ambiguous model with a lifecycle where every state signals one stage and one next action, making the tool's most-used view scannable at a glance using components from the design system. Streamlined design-to-dev handoff by pairing Figma with AI-assisted prototyping to convert static screens into interactive prototypes, enabling faster stakeholder review and tighter iteration loops.

Code4Community – Design Lead

Jan 2026 – Present

Led design for a React Native app connecting 600 volunteers with 1,800 older adults across 4 care programs, directing research and interface design with a cross-functional team. Designed program-adaptive check-in forms, a push/text notification system, and a coordinator dashboard, replacing a manual email-and-Salesforce workflow with real-time visit tracking and issue flagging.

NExT Consulting – UI/UX Design Engineer

Jan 2026 – April 2026

Designed and built an ed-tech microlearning platform, running student interviews to ground new features in real learning needs. Shipped skill-tree learning paths, presentation-mode lessons, and a ground-up admin redesign built on reusable components.

Skills **Design**

Figma, Adobe Creative Suite, User Research, Miro, Storyboarding, Affinity Diagramming, A/B Testing, Design Systems

Technical

Java, JUnit, Python, Kotlin, IntelliJ IDEA, VS Code, GitHub, Git, React, HTML/CSS, JavaScript, TypeScript, Claude Code

Additional **Activities**

Figma Campus Leader, Code4Community, Khoury College Advisory Board, NU Women in Tech, EcoScholars (teach elementary schools about the environment), LEAD360 leadership program, Korean American Student Association
