Education

Northeastern – B.S. in Computer Science and Design

Expected May 2028

GPA: 3.9 | Concentration in Interaction Design

Experience

CarGurus – UX Design Intern

June 2026 – Aug 2026

Redesigned a multivariate-testing tool from an ambiguous, hard-to-parse workflow into an intuitive experience for three power-user groups, grounded in user research and competitive analysis of user behaviors and pain points, with clearer user flows and a redesigned test lifecycle. Leveraged AI tools to turn static Figma frames into interactive prototypes, accelerating stakeholder feedback and iteration.

Code4Community – Design Lead

Jan 2026 – Present

Lead design for a React Native app connecting 600 volunteers with 1,800 older adults across four care programs, directing research and design with a team of designers, PMs, and engineers. Designed adaptive check-in forms, push and text notifications, and a coordinator dashboard, replacing a manual email and Salesforce workflow with real-time visit tracking and issue flagging.

NExT Consulting – UI/UX Design Engineer

Jan 2026 – April 2026

Designed and built an edtech platform piloted in Northeastern's CS1200 across three campuses. Shipped skill-tree learning paths, in-browser Python notebooks, and a ground-up admin rebuild, grounded in student and instructor interviews. Active learners grew from 180 to 760, enrollments from 2,000 to 13,000, and lesson completions from 150 to 2,500.

Skills

Design

Product Design, Design Systems, Figma, User Flows, User Research, Prototyping, Usability Testing, Accessibility, Information Architecture, Competitive Analysis, Storytelling, Claude Design, Figma Make, Miro

Technical

Claude Code, Figma MCP, React, React Native, TypeScript, JavaScript, Tailwind, HTML/CSS, Python, Java, Kotlin, SQL, Git, GitHub

Additional

Activities

Figma Campus Leader, Code4Community, Khoury Student Advisory Board, NU Women in Tech, LEAD360 leadership program, EcoScholars, Korean American Student Association
